

Designing with Pattern Blocks & Weave Structures

Sample Project: *Gebrochen* (broken twill).

Warp: 5/2 cotton sett at 20 epi.

Weft: 5/2 cotton in contrasting color to warp or similar weight yarn such as 2/8 JaggerSpun wool.

Comments: The draft is for 162 threads for 8.1" width. This is a similar design to the 9 star overshoot pattern. Here the singles version of *Gebrochen* is

used without the plain weave foundation.
